

The background of the slide is a photograph of a coastal landscape. In the foreground, numerous thin, vertical wooden posts are planted in shallow, calm water, likely for aquaculture. The water reflects the posts and the sky. In the distance, a hazy coastline with buildings and hills is visible under a clear blue sky.

Sources

- 98 EU aquaculture projects, of which 48 relevant to shellfish production
- National RTD projects & grey literature
- Other (empirical) knowledge

Dissemination:

one-way, distribute knowledge, assume audience will take up and use

Knowledge Transfer:

- two-way, iterative process
- engagement & networking
- transfer end-users' needs
- measure uptake & impact
